Climate neutrality concept

3 Steps to climate neutrality

Avoiding & reducing emissions come first

Carbon footprint measurement & continuous improvement

Offset inevitable emissions with climate protection projects

- > CDM, VCS, GoldStandard®, ...
- > Reduce emissions & generate carbon credits
- > Transparent, verified, internationally recognized
- > Sustainable social co-benefits, strict additionality
- > 1 carbon credit = 1 avoided ton CO₂

Offsetting how does it work?

= 1 tCO₂ emission

= 1 tCO₂ reduction

= 1 carbon credit
